Professional Experience

Fullstack Developer

Freelance . Remote

Feb 2023 – Jul 2023

- Developed a mobile application using Flutter for the front-end and Laravel for the back-end. The app was designed for an event with over 20,000 startups.
- Redesigned a mobile application using Flutter, implementing modern UI/UX principles to enhance user experience and visual appeal.

Co-founder/Fullstack Developer

Online Taviz . self-employed

Jul 2021 – Feb 2023

- website: <https://onlinetaviz.ir>
- Co-founded and developed a mobile application for tracking vehicle services, using Flutter for the front-end and Laravel for the back-end. The app has gained over 4,000 users, providing them with a convenient and efficient way to track their vehicle services.

Software Developer

Freelance . Remote

Oct 2019 – Apr 2021

- Experienced Django REST API Freelancer with a focus on ecommerce websites. Developed user-friendly, responsive sites with integrated user authentication, databases, and payment gateways. Expertise in designing and developing intuitive interfaces for seamless browsing and purchasing experiences.

Open Source Contributions

- **Laravel Package IP to Country Flag:** Developed a Laravel package, "[IP to Country Flag](#)" providing country information based on IP addresses.
- **Flutter Package Upgrader:** Contributed to Flutter package Upgrader, addressing Persian localization bugs. Successfully merged changes into Upgrader v4.1.2, improving the user experience for Persian-speaking users.
- **Laravel Package Filament Advanced Filter:** Enhanced the Laravel package Filament Advanced Filter with a Persian translation plugin.
